STABBED**Traveling Man Who Interfered.****Exciting Time on Mill Street Tuesday Afternoon.**

Frank Martin, of Barberton, accompanied by his wife and children, came to Akron to see the parade. They were standing in front of the Bucatel, shortly after 2 p. m. Tuesday when Martin quarreled with his wife, and, according to bystanders, abused her. Adolph Kozl, a traveling man from Cleveland, interfered, and Martin struck him. Kozl struck back and an indiscriminate fight followed, in which Martin got the worst of it.

Kozl left him, went to enter the hotel, when Martin drew a knife and followed him. He overtook him after a few steps and stabbed Kozl in the back, the knife blade striking him in the right shoulder and being turned by his shoulder blade. Physicians hurriedly attended Kozl and Martin was arrested.

Kozl's injuries are not serious, the intervening shoulder blade having prevented a fatal wound. Martin's lip was cut and he received a severe scalp wound during the fight which preceded the stabbing. He was attended at the city prison by Dr. Harry Todd.

FORAKER**Crowd Does Not Like the Hanna Slate.**

Cleveland, O., May 27.—The Hanna slate has been nearly completed for the Republican State convention.

The slate contains the name of Judge Crew, of McConnesville, for Supreme Court Judge. The name in the blank left for Dairy Food Commissioner is missing, but therein is a statement to the effect that no candidate having the backing of Joe Blackburn is to be given the support of loyal Hanna men. As Blackburn has a little machine of his own of no mean proportions, which he has built during his two terms as Dairy and Food Commissioner, he is not likely to forsake his man without a struggle, and a pretty fight is promised.

Blackburn has arrived, and it is known now that his man for the position which Hanna has said he may not fill with one of his friends is Fred Herbst, of Columbus. The Hanna people have not united on a man to oppose Herbst as yet. Horace Ankeny would like to be that man, but he has not yet been awarded the preference. The delay has somewhat to do, it is claimed, with the fact that Cox has recently said that while he is willing to help in the slaying of the Blackburn nominee, he can see no man at present in the field whom he cares to support.

The Hanna slate may not have an easy passage through this convention. Foraker strength seems to be looming up as the delegates arrive. This faction will probably unite on Judge Woods, of Athens, for their bench candidate, and they will undoubtedly assist Blackburn in his attempt to land his man despite the Hanna crown.

The other candidates who are showing up with a strong following for the Judgeship are Judge Norris, of Youngstown, and Judge Summers, of Springfield. The former claims support from all three factions based on his friendship for Hanna, his popularity with the Forakerites and Daugherty's friendship for him.

Summers hopes to land the same strength which is expected to go to Woods, of Athens, because of his well known Bushnell-Foraker standing. The remainder of the long list of candidates listed for the two places on the ticket of most importance, excepting the Secretary of State, where Layla will be named without opposition, seem likely to fall in the "also ran" class.

Cuyahoga county has two candidates in the field and two factions are backing them. The Hanna people locally, or a few of them, favor Judge Phillips for the bench; the Foraker men will strive to land the Commission forship for Teddy Batt. Each is promising to trade to the disparagement of the chances of the other candidate, and as a result neither is likely to get more than pleasant mention.

Mrs. B. Hogan, of No. 101 Hickory st., Akron, Ohio, says: "We have used Dr. A. W. Chase's Nerve Pills with great success where the stomach was weak—the food would not digest and caused headaches. In a case of this kind in our family—the results were fine—the stomach and digestion are now all right and the headaches a thing of the past. This we think is good proof of their value."

MONT PELEE IS GETTING BUSY AGAIN**Inky Clouds and Utter Darkness Frightened Fort De France.**

Fort de France, Island of Martinique, Monday, May 26.—9 a. m.—Mont Pelee is again in eruption. Huge inky black clouds are rolling over Fort de France in great masses in which there are peculiar lightning flashes. The inhabitants are now flocking into the great square of the town. If the demonstration increases a panic is imminent. A very heavy surf has been beating on the shore for the last two hours and an enormous grayish yellow cloud at a great height is dimly visible in the direction of Mont Pelee.

The night is intensely dark and the stars are only faintly visible. Fort de France is in no danger from the volcano, but there is considerable apprehension of a panic in the night time, should the grayish yellow cloud reach here and ashes and stones begin to fall. There are no noises from the volcano at present.

KILLED THE GIRL HE LOVED**Chicago Youth Feared He Would be Separated From Her.**

Chicago, May 27.—Emil Rossman, aged 19, shot and killed his sweetheart, Sophia Katal, and then shot himself. It is believed he will die. The girl was but 17 years of age. She and Rossman came to Chicago two months ago from Bohemia with an aunt of Rossman's. They were sweethearts in the old country and the girl was brought along because Rossman had threatened to kill her and himself if any attempt was made to separate them. The opposition to the union was due to the youth of the pair. Sunday Rossman fired at the girl but missed her and yesterday the police were notified. It was not till early today that they were found lying side by side under a board sidewalk on the West Side. The girl was dead with a bullet in her brain. Rossman was also shot in the head, but he still breathed faintly.

Round About

It is not a matter of record that the wet goods dispensers have contributed anything towards bringing Mr. Crispin's congressional convention to Ravenna.—Kent Courier.

Adam Bowman, at the age of 80 years, this spring, has cut down the timber, cut his iron rail-cut length, all alone with his crooked saw, and has split 300 rails and laid it up into a new fence out near the road on his farm on the Chatham Center road, where everybody can see it as they go by. Who can beat it?—Lafayette Cor. Medina Gazette.

Lodi, O., is still on the map and is booming right along and getting bigger every day. Even our school boys feel bigger than they did a few days ago, and the reason for their swelled condition is that the Medina ball club came down here last Saturday and got done up to the time of 13 to 21 in favor of our school boy's team. Who'd a think it?—Lodi Cor. Medina Sentinel.

The N. O. T. Co. has a force of men engaged cleaning the track on West Main street, preparatory to replacing the present rails with heavy 60 foot ones. The long rails are on the ground, and when the track is ready the change will be made rapidly. With a good road bed and the new rails, there will be a marked improvement in smoothness of motion of running cars.—Kent Bulletin.

A Cold To-Day Means Consumption To-Morrow.
